

Call the Ball at Rochester Safety Stand Down 2013!

Navy Fighter Pilots are challenged by some of the most difficult approaches and landings known to aviation. Wouldn't it be nice if each time we landed there were a Landing Signal Officer (LSO) guiding us down, verbally coaching our approach and giving instructions on whether we were too low or slightly left of course? Or perhaps a "wave off" to let us know when we should perform a go-around? The truth is that you don't need an LSO to make safe and successful approaches and landings. By applying the concepts, procedures and best practices used by fighter pilots and the airlines, you can make great landings too!

Attend this FREE seminar and refresh your skills on the lost art of approach and landing. Click on the link below for details and to register TODAY!

Directions: Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
